

9:45 a.m. - Workshop Room 3

HEAD, SHOULDERS, KNEES, AND WOES!

Join Dr. Travis Frantz, an orthopedic surgeon fellowship-trained in sports medicine and shoulder surgery, as he discusses the aging shoulder and knee. Dr. Frantz understands the desire for active individuals to maintain their lively and engaged lifestyle. He will discuss some common issues, symptoms, and treatments to help keep the weight off your shoulders and the pep in your step through every life stage.

Speaker: Dr. Travis Frantz
Orthopedic Surgeon

Dr. Travis Frantz is an orthopedic surgeon fellowship-trained in sports medicine and shoulder surgery. He uses operative and non-operative techniques to treat all types of orthopedic conditions, from sports-related injuries to arthritic degenerative changes and trauma. He specializes in less invasive arthroscopic techniques for the shoulder, knee, and elbow, as well as joint replacement of the shoulder and knee.

As a former collegiate athlete, Dr. Frantz understands the desire for active individuals to return to their pre-injury level of activity and performance. In addition to his work as a skilled orthopedic surgeon, he has provided physician coverage to sports teams at the high school, collegiate and professional levels.
